TA's must remain with the class, teacher's PREP.

PE is outside with Teacher Luca and Teacher Oskar.

Art and Music will be in your room with Teacher Edelyn.

Thai/TFL will be in your room.

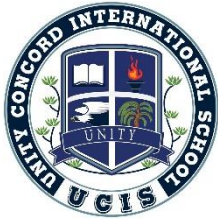

Creative play incorporates a whole range of activities, which use the imagination of the child. This can be anything from dancing to drawing, building with blocks, or dressing up. Children are naturally curious and like to explore and experiment. Creative play should be fun and stimulating, and develop the child's knowledge and senses as they learn new skills and challenges.

Dramatic play helps children explore different roles and situations as children play with items and tools adults use in everyday life. Role play also helps children learn about their community, their surrounding environment, and a variety of careers.

Circle time provides a time for listening, developing attention span, promoting oral communication, and learning new concepts and skills. It is a time for auditory memory, sensory experiences, socialization, and a time for fun. Student's will be discussing the weather, the calendar, and shape/letter/number of the week or month. Student's will work on cognitive development, fine and gross motor, emotional and social domains as a community.

Physical Education helps students stay physically active and healthy, develops interests in different types of sports, builds teamwork, social skills, and improves focus and academic performance.

Art and music help students develop mentally, socially, and emotionally. Creative thinking boosts children's ability to analyze and problem-solve in a myriad of ways. Art and music help boost self-confidence. Children who feel free to experiment and be creative are free to invent new ways of thinking, which extends well beyond the art and music room.
